

Rustic Bonded / Rustic-Monolithic Terrazzo (Print)

Description:

Terrazzo with a non-ground, textured surface, for exterior use. This system is available with Bonded and Monolithic Terrazzo.

AVAILABLE DOWNLOADS:

- Word Doc with LEED
- Word Doc without LEED
- PDF with LEED
- PDF without LEED
- PDF 3D Rustic Bonded System Detail
- DWG CAD ready

Advantages:

Infinitely variable textures, colors and patterns may be created in a weather-resistant, skid-resistant deck surface.

Thickness: Bonded 1.75" – 2" including a .5" terrazzo topping. Monolithic .5" terrazzo topping.

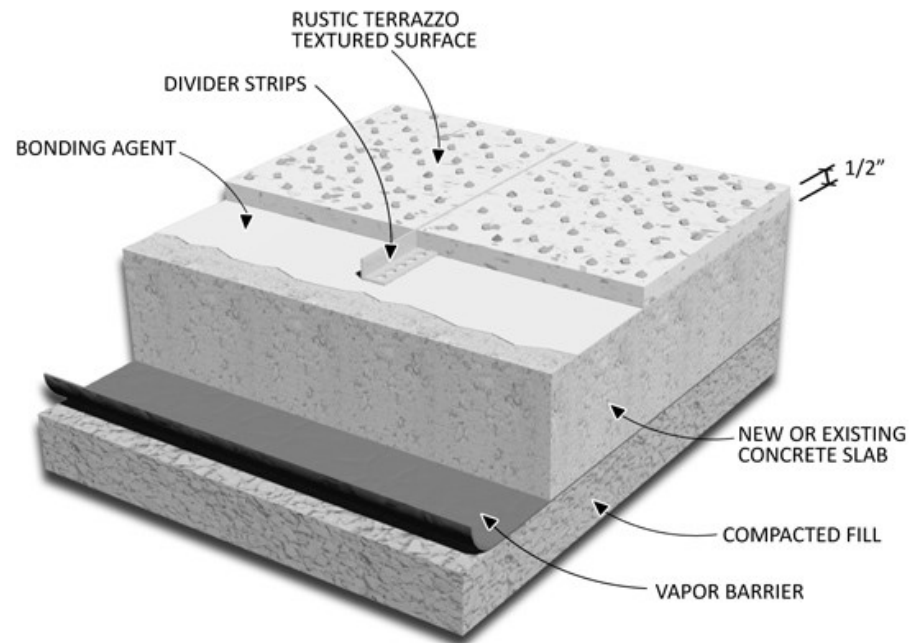

Weight: Dependent on system selected.

Dividers:

Temporary wood strips are used, then replaced by a pourable sealant inserted into the joint.
